

2c. Content of Exploring modern and literary heritage texts (01)

For this component, learners study one modern prose or drama text and one 19th century novel. The focus is on learners engaging with their reading through exploring key themes, ideas and issues, characterisation and settings in order to build confidence in their skills of critical evaluation. Study of the modern set text is enhanced through comparative study with an unseen modern, same genre extract.

The following tables set out the content of GCSE (9–1) in English Literature, Section A and Section B for component 01. These provide details on the required knowledge, understanding and skills as well as expected breadth and depth of texts studied.
