

10.02	Perimeter calculations				
10.02a	Perimeter of rectilinear shapes	Calculate the perimeter of rectilinear shapes.			G17
10.02b	Circumference of a circle	Know and apply the formula $\text{circumference} = 2\pi r = \pi d$ to calculate the circumference of a circle.	Calculate the arc length of a sector of a circle given its angle and radius.		G17, G18

GCSE (9–1) content Ref.	Subject content	Initial learning for this qualification will enable learners to...	Foundation tier learners should also be able to...	Higher tier learners should additionally be able to...	DfE Ref.
10.02c	Perimeter of composite shapes	Apply perimeter formulae in calculations involving the perimeter of composite 2D shapes.			G17, G18
