

4.7 ASSESSMENT OF WRITTEN COMMUNICATION AND ICT

Where written communication and ICT are used as a contribution to responses to the objectives, candidates are expected to:

- present relevant information in a form that suits its purpose;
- ensure text is legible and that spelling, punctuation and grammar are sufficiently accurate to ensure that the meaning is clear.

Where appropriate, candidates should also use a suitable structure and style of writing.

When candidates submit Centre-assessed work using ICT they are expected to give full details of the technology used on the appropriate form.
