

1.1.b. The structure and function of the muscular system

Learners will develop their knowledge of the location of the major muscle groups and be able to apply muscle use to examples from physical activities and sport. Learners will also develop their knowledge of

the roles of muscles as agonists, antagonists, fixators and also how they operate as antagonistic pairs, again by applying to examples from physical activities and sports.

Topic area	Learners must:
Location of major muscle groups 	• know the name and location of the following muscle groups in the human body and be able to apply their use to examples from physical activity/sport: ○ deltoid ○ trapezius ○ latissimus dorsi ○ pectorals ○ biceps ○ triceps ○ abdominals ○ quadriceps ○ hamstrings ○ gluteals ○ gastrocnemius.
The roles of muscle in movement 	• know the definitions and roles of the following and be able to apply them to examples from physical activity/sport: ○ agonist ○ antagonist ○ fixator – antagonistic muscle action.
