
Component 2: Externally Set Assignment

Overview

This component is weighted 40% of the total qualification.

This component incorporates **two major elements: preparatory studies and the 15-hour period of sustained focus**. The Externally Set Assignment represents the culmination of the GCE Qualification allowing students to draw together all the knowledge, understanding and skills developed throughout. The Externally Set Assignment consists of one broad-based thematic starting point to which students respond by developing a portfolio of practical work and final outcome(s).

The Externally Set Assignment comprises an externally set theme with suggested starting points. Students will need to develop their own personal work from this theme and related starting points.

It is internally assessed, and externally moderated. The Externally Set Assignment will be available from 1 February of each year. Students can then begin their preparatory studies, culminating in the final 15-hour period of sustained focus under examination conditions. The 15-hour period of sustained focus under examination conditions may take place over multiple sessions (a maximum of five, within three consecutive weeks). All student work must be completed in advance of centres' internal assessment and standardisation.

Preparatory studies

Preparatory studies can help to provide focus for the development of ideas and outcomes. Preparatory studies will be evidenced throughout the creative journey and can take many forms such as recorded research, written annotation and practical exploration and development.

Preparatory studies must be submitted with final outcome(s) produced during the period of 15 hours' sustained focus. The preparatory studies must show the full breadth and depth of students' visual and written critical thinking in the progress of their work.

15-hour period of sustained focus

During the 15-hour period of sustained focus students will produce their final outcome(s) responding to the Externally Set Assignment theme, based on their preparatory studies. This work must be produced unaided under controlled examination conditions. The 15-hour period of sustained focus under examination conditions may take place over multiple sessions (a maximum of five, within three consecutive weeks). Students should plan the best use of the 15 hours to complete all final outcome(s) within this time. Students must not access their work outside of assessment time. Work must not be added to or altered after the 15-hour supervised period has ended.

To summarise:

- preparatory studies will support the work for the period of sustained focus
- knowledge, understanding and skills should primarily be communicated through a portfolio of practical work
- the Externally Set Assignment will be available on 1 February in the year of certification
- the delivery of this component should be planned to include appropriate guidance during the preparatory period (from 1 February until the commencement of the final 15 hours), encouraging students to develop ideas, intentions and response(s) independently
- students must produce work unaided under examination conditions during the 15-hour period of sustained focus
- the 15-hour period of sustained focus under examination conditions may take place over multiple sessions (a maximum of five, within three consecutive weeks)
- work completed as preparatory studies and during the 15-hour period of sustained focus must be presented together for assessment and moderation
- work must not be added to or altered after the 15-hour supervised period has ended
- this component will be assessed using the assessment grid on pages 33–35. Only Assessment Objectives 1 to 4 should be used when assessing students' work.

Assessment grids

Teachers must assess students' work using the criteria in the following assessment grids. The same grids must be used for all titles.

For Component 1 (60% of the qualification):

- Assessment Objectives 1–4 are to be used for practical work and written annotation where present.
- The personal study grid is to be used only for the assessment of the personal study of a minimum 1000 words continuous written prose.

For Component 2 (40% of the qualification):

- Assessment Objectives 1–4 are to be used for the assessment of all practical work and written annotation where present.

Mark bands 1 to 6 each contain three marks. Teachers/assessors must establish whether the work being assessed is in the top, middle or bottom of a given band for each criterion.

Band 0 should be used where work has **not** achieved the required standard for this qualification.

Please use the mark grids in *Appendix 2: Teacher Mark Sheets* when entering marks for assessment of each component by each student.

The following grid relates to all Advanced level student practical work and annotation. The grid assesses all four Assessment Objectives equally.

Assignment setting

Component 1

Students will develop their assessed responses for component 1 from themes and subject matter developed from personal starting points, to be negotiated with the teacher. Teachers must ensure that there is sufficient potential for the student to meet the Assessment Objectives.
