

3.6 Availability of activity sheets

The activity sheets for activities **b**, **c** and **d** will be available to download from the Edexcel website. They are securely stored so a password is required to access them. These activity sheets are confidential and must not be distributed to students prior to them carrying out the task.

The tasks for activity b — qualitative observation will change each year. The tasks listed in *section 3.3* (ASB1, ASB2, ASB3 and ASB4) are only valid from September 2008 to August 2009. New tasks will be available for each following year, on the Edexcel website, as secure files. The new files will have different codes (eg ASB5) to make them easily identifiable.
