

5.8 There are consequences and risks associated with water insecurity.	a. The causes of and global pattern of physical water scarcity and economic scarcity and why the price of water varies globally. (8) b. The importance of water supply for economic development (industry, energy supply, agriculture) and human wellbeing (sanitation, health and food preparation); the environmental and economic problems resulting from inadequate water. c. The potential for conflicts to occur between users within a country, and internationally over local and trans-boundary water sources (🌐 Nile or Mekong). (P: role of different players). (9)
