
2.2 Local Study

Introduction

This task enables students to undertake independent research into the local provision and opportunities for participation in one chosen physical activity. Both the grassroots and first level of elite selection should be considered.

The project will reflect the school, college, club and area provisions in terms of facilities, organisations, competitions and performer development in the three roles of performer, leader and official.

If this task is presented in a written (continuous prose) format, then 1000 words will be considered an appropriate length.

It is the centre's responsibility to inform students that there is no tolerance on the prescribed word limit. Students are required to include a cumulative word count at the bottom of each page. Teacher-assessors and moderators will discontinue marking once the prescribed word limit is reached.
