

	Task 4.1 – Development Plan (AO1, AO2, AO3) Component 3 – Review and Evaluation
Mark Band 5 (5)	The student has been able to construct a very high standard of insight when reviewing their development plan. On completion of their plan, and by way of evaluation, the student has been able to link the knowledge and understanding of their outcomes, and relate these to both the specific aims and the scientific, technical or psychological information contained in their planning as appropriate. Clear, objective judgements and subsequent observations of the successes, and possible failures, of the plan are recorded accurately and explanations offered as appropriate. In discussions with centre staff the student will be able to offer insightful suggestions as to any future development plan and they are able to demonstrate extensive understanding of the context of their plan.
Mark Band 4 (4)	The student has been able to construct a high standard of insight when reviewing their development plan. On completion of their plan, and by way of evaluation, the student has been reasonably able to link the knowledge and understanding of their outcomes, and relate these to both the specific aims and the scientific, technical or psychological information contained in their planning as appropriate. Sound, objective judgements and subsequent observations of the successes, and possible failures, of the plan are recorded accurately and explanations offered as appropriate. In discussions with centre staff, the student will be able to offer valid suggestions as to any future development plan and they are able to demonstrate a very good understanding of the context of their plan.
Mark Band 3 (3)	The student has been able to construct a good standard of insight when reviewing their development plan. On completion of their plan, and by way of evaluation, the student has been limited in their ability to link the knowledge and understanding of their outcomes, and relate these to both the specific aims and the scientific, technical or psychological information contained in their planning as appropriate. Simple judgements and subsequent observations of the successes, and possible failures, of the plan are recorded with few, if any, errors and while explanations are offered there may be some omissions. In discussions with centre staff, the student will be able to offer limited suggestions as to any development plan AND they are able to demonstrate only limited understanding of the context of their plan.
Mark Band 2 (2)	The student has been able to construct a moderate standard of insight when reviewing their development plan. On completion of their plan, and by way of evaluation, the student has been limited in their ability to link the knowledge and understanding of their outcomes and relate these to both the specific aims and the scientific, technical or psychological information contained in their planning as appropriate. Basic judgements and subsequent observations of the successes, and possible failures, of the plan are recorded, although it will contain errors, and while explanations will be offered, there will be omissions. In discussions with centre staff, the student will be able to offer only simple suggestions as to any development plan and these may be subjective in nature, and when they demonstrate a simplistic understanding of the context of their plan.
Mark Band 1 (1)	The student has been able to construct a limited standard of insight when reviewing their development plan. On completion of their plan, and by way of evaluation, the student has not been able to link the knowledge and understanding of their outcomes and relate these to both the specific aims and the scientific, technical or psychological information contained in their planning as appropriate. The student will have made clear errors in their judgements and subsequent observations of the successes, and possible failures, of the plan, while those explanations offered will be subjective in nature. In discussions with centre staff, the student may be able to offer only simple suggestions as to any development plan and they demonstrate no clear understanding of the context of their plan.

Task 4.2 — International Study (AO1, AO3)	
Mark Band 5 (13–15)	The student has demonstrated a very high level of knowledge and understanding of the international context of their one chosen role from performer, leader or official in one nation. The student has clearly identified provision for grassroots participation through schools and clubs, and for the pathways available for elite progression in their chosen role in one physical activity. The task contains full details on the ethos for participants in their chosen country, and has identified the pathways open for progression to elite professional level, the various competition formats, national training provisions and the importance of physical activity/sport in this context. The student will have made full reference to the various schemes open to participants, the funding and additional agencies involved. The task should make reference to international sports issues, such as labour migration, that could lead to further understanding of the nature and standing of physical activity/sport within their chosen country. The student has been able to make appropriate critical comment on their findings. In completing the task the student has included significant factual detail, and the task contains an extensive bibliography.
Mark Band 4 (10–12)	The student has demonstrated a high level of knowledge and understanding of the international context of their one chosen role from performer, leader or official in one nation. The student has been able to identify provisions for grassroots participation through schools and clubs, and for the pathways available for elite progression in their chosen role in one physical activity/sport, although there may be some omissions. The task contains information on the ethos for participants in their chosen country, and has attempted to identify the pathways open for progression to elite professional level, the various competition formats, national training provisions and the importance of physical activity/sport in this context. The student will have made some reference to the various schemes open to participants, the funding and additional agencies involved. The task may make reference to international sports issues, such as labour migration, which could lead to further understanding of the nature and standing of physical activity/sport within their chosen country. The student has been able to include some critical comment on their findings. In completing the task the student has included some factual detail, and the task contains an appropriate bibliography.
Mark Band 3 (7–9)	The student has demonstrated a good level of knowledge and understanding of the international context of their one chosen role from performer, leader or official in one nation. The student will have attempted to identify the provisions for grassroots participation through schools and clubs, and for the pathways available for elite progression in their chosen role in one physical activity/sport, although there will be clear omissions. The task contains some information pertaining to the ethos for participants in their chosen country, and has made some attempt to identify the pathways open for progression to elite professional level, the various competition formats, national training provisions and the importance of physical activity/sport in this context. The student will have made some reference to the various schemes open to participants, the funding and additional agencies involved. The task will have little reference to international sports issues, such as labour migration, which could lead to further understanding of the nature and standing of physical activity/sport within their chosen country. The student will include simplistic critical comment on their findings. In completing the task the student has included few factual details, and the task may not contain an appropriate bibliography.
Mark Band 2 (4–6)	The student has demonstrated a moderate level of knowledge and understanding of the international context of their one chosen role from performer, leader or official in one nation. The student will have attempted, with limited success and detail, to identify the provisions for grassroots participation through schools and clubs and for the pathways available for elite progression in their chosen role in one physical activity, although there will be clear omissions. The task fails to contain detailed information pertaining to the ethos for participants in their chosen country, and has made some attempt to identify the pathways open for progression to elite professional level, the various competition formats, national training provisions and the importance of physical activity/sport in this context. The student will have made little reference to the various schemes open to participants, the funding and additional agencies involved. The task will have scant reference to international sports issues, such as labour migration, which could lead to further understanding the nature and standing of physical activity/sport within their chosen country. The student will have included only simplistic critical comment on their findings. In completing the task the student has included few factual details, and the task may not contain an appropriate bibliography.

	Task 4.2 — International Study (AO1, AO3)
Mark Band 1 (1–3)	The student has demonstrated a limited level of knowledge and understanding of the international context of their one chosen role from performer, leader or official in one nation. The student will have largely failed to explore the provisions for grass roots participation through schools and clubs, and for the pathways available for elite progression in their chosen role in one physical activity. The task fails to contain detailed information pertaining to the ethos for participants in their chosen country and has made little or no attempt to identify the pathways open for progression to elite professional level, the various competition formats, national training provisions and the importance of physical activity/sport in this context. The student will have made mention in no detail of the various schemes open to participants, the funding and additional agencies involved. The task will have scant reference to international sports issues, such as labour migration, which could lead to further understanding of the nature and standing of physical activity/sport within their chosen country. The student will have included no critical comment on their findings. In completing the task the student will have omitted factual details and the task may not contain an appropriate bibliography.

Task 4.3 — Progressive Participation — ‘player/participant’ (AO1, AO2)	
Mark Band 5 (17–20)	The student has produced an outstanding level of consistent performances in both the short-term preparation and the long-term training for the appropriate competitive environments of their selected physical activity, with the basis of this performance being centred on a very high standard of the appropriate physiological, technical, tactical and psychological aspects related to their physical activity. Where competition exists, the student has always produced dominant performances in a variety of competitive formats, and is able to respond to, and use, the pressure of expectation to achieve notable success at their level of performance/participation. Where competition does not exist, the student will have produced an outstanding level of performances over time, providing for a final and summative assessment relative to their physical activity.
Mark Band 4 (13–16)	The student has produced a very high level of consistent performances in both the short-term preparation and the long-term training for the appropriate environments of their selected physical activity, with the basis of this being centred on a high standard of the appropriate physiological, technical, tactical and psychological aspects related to their physical activity. In addition, candidates will demonstrate a very high level of application of knowledge and understanding related to their physical activities. Where competition exists, the student has been able to produce dominant performances in a variety of competitive formats and is able to respond to, and use, the pressure of expectation to achieve successes at their level of performance/participation. Where competition does not exist, the student will have produced a very high level of performances over time, providing for a final and summative assessment relative to their physical activity.
Mark Band 3 (9–12)	The student has produced a high level of consistent performances in both the short-term preparation and the long-term training for the appropriate environments of their selected physical activity, with the basis of this being centred on a very good standard of the appropriate physiological, technical, tactical and psychological aspects related to their physical activity. In addition, students will demonstrate a high level of application of knowledge and understanding related to their physical activities. Where competition exists the student has been able to produce consistent performances in a variety of competitive formats and is able to cope with the pressure of expectation, to achieve successes at their level of performance/participation. Where competition does not exist, the student will have produced a high level of accumulative performances, providing for a final and summative assessment relative to their physical activity.
Mark Band 2 (5–8)	The student has produced a good level of consistent performances in both the short-term preparation and the long-term training for the appropriate environments of their selected physical activity, with the basis of this being centred on a good standard of the appropriate physiological, technical, tactical and psychological aspects related to their physical activity. In addition, candidates will demonstrate a good level of application of knowledge and understanding related to their physical activities. Where competition exists the student has been able to produce reasonably consistent performances in a variety of competitive formats and is invariably able to cope with the pressure of expectation, to achieve successes at their level of performance/participation. Where competition does not exist, the student will have produced a good level of accumulative performances, providing for a final and summative assessment relative to their physical activity.

	Task 4.3 — Progressive Participation — ‘player/participant’ (AO1, AO2)
Mark Band 1 (1–4)	The student has produced a rudimentary level of inconsistent performances in both the short-term preparation and the long-term training for the appropriate environments of their selected physical activity, with the basis of this performance being centred on an average but limited standard of the appropriate physiological, technical, tactical and psychological aspects related to their physical activity. In addition, students will demonstrate a rudimentary level of application of knowledge and understanding related to their physical activities. Where competition exists the student has been able to produce reasonably consistent performances in a variety of competitive formats and is invariably able to cope with the pressure of expectation, to achieve successes at their level of performance/participation. Where competition does not exist, the student will have produced a rudimentary level of accumulative performances, providing for a final and summative assessment relative to their physical activity.

Task 4.3 — Progressive Participation — ‘leader’ (AO1, AO2)	
Mark Band 5 (17–20)	The student has been able to produce an outstanding level of performance in leading a group, team or individual in one physical activity context during the length of the assessment period. The student has demonstrated, through an extensive level of knowledge and understanding, how to work alongside others in order to progress performances in a sports environment appropriate to the leader’s ability and specific role. The student is fully able to recognise and act upon the strengths and weaknesses of the group, team or individual and exhibits excellent communication skills. They display extensive organisational abilities and very high motivational skills.
Mark Band 4 (13–16)	The student has produced a very high level of performance in leading a group, team or individual in one physical activity context during the length of the assessment period. The student has demonstrated, through a high level of applied knowledge and understanding, how to work alongside others in order to progress performances in an environment appropriate to the leader’s ability and specific role. The student is fully able to recognise and act upon the strengths and weaknesses of the group, team or individual and is highly proficient in communicating, displays extensive organisational abilities and motivational skills.
Mark Band 3 (9–12)	The student has produced a high level of performance in leading a group, team or individual in one physical activity context during the length of the assessment period. The student has demonstrated, through an informed level of applied knowledge and understanding, how to work alongside others in order to progress performances in an environment appropriate to the leader’s ability and specific role. The student is able to recognise and act upon the strengths and weaknesses of the group, team or individual and is proficient in communicating, displaying very good organisational abilities and motivational skills.
Mark Band 2 (5–8)	The student has produced a good level of performance in leading a group, team or individual in one physical activity context during the length of the assessment period. The student has demonstrated, through a sound level of applied knowledge and understanding, how to work alongside others in order to progress performances in an environment appropriate to the leader’s ability and specific role. The student is normally able to recognise and act upon the strengths and weaknesses of the group, team or individual and is developing communication skills. They display good organisational abilities and motivational skills.
Mark Band 1 (1–4)	The student has produced a rudimentary level of performance in leading a group, team or individual in one physical activity context during the length of the assessment period. The student has demonstrated, through an emerging level of applied knowledge and understanding, how to work alongside others in order to progress performances in an environment appropriate to the leader’s ability and specific role. The student is sometimes able to recognise and act upon the strengths and weaknesses of the group, team or individual and has limited communication skills and organisational abilities while demonstrating few motivational skills.

Task 4.3 — Progressive Participation — ‘official’ (AO1, AO2)	
Mark Band 5 (17–20)	The student has been able to produce an outstanding standard of officiating at an appropriate performance level in one selected physical activity. The student demonstrates an extensive knowledge and understanding of the rules/laws of the physical activity they officiate in, and can always impose their authority as required to ensure that the performance is successful. The student has excellent communication, positioning and signalling skills, as appropriate to the level of competition and their experience and will probably hold a recognised NGB qualification. The student always carries out their responsibilities with the necessary uniform, equipment and pre-officiating protocols as required to the highest standards. The student has a full awareness of the performance demands required of the participant(s).
Mark Band 4 (13–16)	The student has been able to produce a very high standard of officiating at an appropriate performance level in one selected physical activity during the length of the assessment period. The student demonstrates an extensive knowledge and understanding of the rules/laws of the selected physical activity and can always impose authority when required to ensure that the performance is successful. The student has excellent communication, positioning and signalling skills as appropriate to the level of competition and their experience and/or recognised NGB qualification(s). The student always carries out their responsibilities with the necessary uniform, equipment and pre-officiating protocols, as required to meet the highest standards. The student has a full awareness of the performance demands required of the participant(s).
Mark Band 3 (9–12)	The student has been able to produce a high standard of officiating at an appropriate performance level in one selected physical activity during the length of the assessment period. The student demonstrates a proficient knowledge and understanding of the rules/laws of the selected physical activity and can, on most occasions, impose authority when required to ensure that the performance is successful. The student has very good communication, positioning and signalling skills as appropriate to the level of competition and their experience and/or recognised NGB qualification(s). The student can usually be relied upon to carry out their responsibilities with the necessary uniform, equipment and pre-officiating protocols as required to meet very good standards. The student has an awareness of the performance demands required of the participant(s).
Mark Band 2 (5–8)	The student has been able to produce a good standard of officiating at an appropriate performance level in one selected physical activity during the length of the assessment period. The student demonstrates a sound knowledge and understanding of the rules/laws of the selected physical activity, and can usually, but not always, impose authority when required to ensure that the performance is successful. The student has good communication, positioning and signalling skills as appropriate to the level of competition and their experience but may not hold recognised NGB qualification(s). The student can generally be relied upon to carry out their responsibilities with the necessary uniform, equipment and pre-officiating protocols as required to meet reasonable standards. The student has a limited awareness of the performance demands required of the participant(s).
Mark Band 1 (1–4)	The student has been able to produce a rudimentary standard of officiating at an appropriate performance level in one selected physical activity during the length of the assessment period. The student demonstrates an emerging knowledge and understanding of the rules/laws of the selected physical activity and can only occasionally impose authority when required to ensure that the performance is successful. The student has limited communication, positioning and signalling skills as appropriate to the level of competition and their experience and will probably not hold recognised NGB qualification(s). The student can rarely be relied upon to carry out their responsibilities with the necessary uniform, equipment and pre-officiating protocols as required to meet reasonable standards. The student has a limited awareness of the performance demands required of the participant(s).

Task 4.4 – Life Plan (AO3)	
Mark Band 5 (9–10)	The student has demonstrated a very high level of knowledge and understanding in writing a life plan based on their present and future participation in physical activity in their chosen role (performer, leader or official). The plan fully details the student's present performance levels and previous developments from post-16 education. The plan includes complete and detailed research into the performance pathways available in higher education and/or in the student's own locality, and reflects the performer's continuing development as appropriate. The plan extensively outlines the limits on progressive participation due to ageing and/or injury, and contains an age 'time line'. This fully explores changes in circumstance and the provisions and opportunities presently available or which may be available on a local and national basis. The plan will have significant factual support where appropriate. The student includes appropriate references and a bibliography.
Mark Band 4 (7–8)	The student has demonstrated a high level of knowledge and understanding in writing a life plan based on their present and future participation in physical activity in their chosen role (performer, leader or official). The plan details the student's present performance levels and previous developments from post-16 education. The plan includes detailed research into performance pathways available in higher education and/or in the student's own locality, and reflects the performer's continuing development as appropriate, although it may contain omissions. The plan has made a very good attempt to outline the limits on progressive participation due to ageing and/or injury, and contains an age 'time line'. This fully explores changes in circumstance and the provisions and opportunities presently available or which may be available on a local and national basis. The plan will have included a range of factual detail. The student includes some references and an appropriate bibliography.
Mark Band 3 (5–6)	The student has demonstrated a good level of knowledge and understanding in writing a life plan based on their present and future participation in physical activity in their chosen role (performer, leader or official). The plan contains some details of the student's present performance levels and previous developments from post-16 education. The plan will include some but not full research into performance pathways available in higher education and/or in the student's own locality, and reflects the performer's continuing development as appropriate, but contains clear omissions. The plan contains a limited outline as to a student's progressive participation due to ageing and/or injury, and contains a limited age 'time line'. This fails to fully explore changes in circumstances and the provisions and opportunities presently available or which may be available on a local and national basis. The plan will include few factual details. The student includes limited references and the plan may contain an appropriate bibliography.
Mark Band 2 (3–4)	The student has demonstrated a moderate level of knowledge and understanding in writing a life plan based on their present and future participation in physical activity in their chosen role (performer, leader or official). The plan contains brief details of the student's present performance levels and previous developments from post-16 education. The plan includes little detailed research into the performance pathways available in higher education and/or in the student's own locality, and scantily reflects the performer's continuing development as appropriate. The plan, in no detail, outlines the limits on progressive participation due to ageing and/or injury, and contains an age 'time line'. This, in a limited way, explores changes in circumstance and the provisions and opportunities presently available or which may be available on a local and a national basis. The plan contains simple factual detail. The student may have included references and an appropriate bibliography.
Mark Band 1 (1–2)	The student has demonstrated a limited level of knowledge and understanding in writing a life plan based on their present and future participation in physical activity in their chosen role (performer, leader or official). The plan contains a very basic level of detail of the student's present performance levels and previous developments from post-16 education, with clear omissions in content. The plan has very simple detailed research into performance pathways available in higher education and/or in the student's own locality, and scantily reflects the performer's continuing development as appropriate. The plan has a very basic outline of progressive participation due to ageing and/or injury, and contains no real age 'time line'. This may fail to explore changes in circumstance and the provisions and opportunities presently available or which may be available on a local and national basis. The student includes no appropriate references and the plan is unlikely to contain an appropriate bibliography.

Administration of internal assessment

- | | |
|-----------------------------------|--|
| 1 Internal standardisation | Teachers must show clearly how the marks have been awarded in relation to the assessment criteria. If more than one teacher in a centre is marking students' work, there must be a process of internal standardisation to ensure that there is consistent application of the assessment criteria. |
| 2 Authentication | All candidates must sign an authentication statement. Statements relating to work not sampled should be held securely in your centre. Those which relate to sampled candidates must be attached to the work and sent to the moderator. In accordance with a revision to the current Code of Practice, any candidate unable to provide an authentication statement will receive zero credit for the component. Where credit has been awarded by a centre-assessor to sampled work without an accompanying authentication statement, the moderator will inform Pearson and the mark will be adjusted to zero. |
| 3 Further information | <p>For more information on annotation, authentication, mark submission and moderation procedures, please refer to our UK <i>Information Manual</i>, which is available on our website.</p> <p>For up-to-date advice on teacher involvement, malpractice and plagiarism, please refer to the latest <i>Joint Council for Qualifications (JCQ) Instructions for Conducting Coursework</i> document. This document is available on the JCQ website: www.jcq.org.uk.</p> <p>For additional information on malpractice, please refer to the latest <i>Joint Council for Qualifications (JCQ) Suspected Malpractice in Examinations and Assessments: Policies and Procedures</i> document, available on the JCQ website.</p> |

D Assessment and additional information

Assessment information

Assessment requirements	For a summary of assessment requirements and assessment objectives, see <i>Section B, Specification overview</i> .
Entering candidates for the examination for this qualification	Details of how to enter candidates for the examinations for this qualification can be found in our UK <i>Information Manual</i> , copies of which are sent to all examinations officers. The information can also be found on our website (www.edexcel.com).
Resitting of units	There is no limit to the number of times that a student may retake a unit prior to claiming certification for the qualification. The best available result for each contributing unit will count towards the final grade. After certification all unit results may be reused to count towards a new award. Students may re-enter for certification only if they have retaken at least one unit. Results of units held in the Pearson unit bank have a shelf life limited only by the shelf life of this specification.
Awarding and reporting	The grading, awarding and certification of this qualification will comply with the requirements of the current GCSE/GCE Code of Practice, which is published by the Office of Qualifications and Examinations Regulation (Ofqual). The AS qualification will be graded and certificated on a five-grade scale from A to E. The full GCE Advanced Level will be graded on a six-point scale A* to E. Individual unit results will be reported. A pass in an Advanced Subsidiary subject is indicated by one of the five grades A, B, C, D, E of which Grade A is the highest and Grade E the lowest. A pass in an Advanced GCE subject is indicated by one of the six grades A*, A, B, C, D, E of which Grade A* is the highest and Grade E the lowest. To be awarded an A* students will need to achieve an A on the full GCE Advanced level qualification and an A* aggregate of the A2 units. Students whose level of achievement is below the minimum judged by Pearson to be of sufficient standard to be recorded on a certificate will receive an unclassified U result.
Performance descriptions	Performance descriptions give the minimum acceptable level for a grade. See <i>Appendix 1</i> for the performance descriptions for this subject.

Unit results

The minimum uniform marks required for each grade for each unit:

Units 1, 2, 3 and 4

Unit grade	A	B	C	D	E
Maximum uniform mark = 100	80	70	60	50	40

Students who do not achieve the standard required for a grade E will receive a uniform mark in the range 0—39.

Qualification results

The minimum uniform marks required for each grade:

Advanced Subsidiary Cash-in code 8PE01

Qualification grade	A	B	C	D	E
Maximum uniform mark = 200	160	140	120	100	80

Students who do not achieve the standard required for a grade E will receive a uniform mark in the range 0—79.

Advanced GCE Cash-in code 9PE01

Qualification grade	A	B	C	D	E
Maximum uniform mark = 400	320	280	240	200	160

Students who do not achieve the standard required for a grade E will receive a uniform mark in the range 0—159.

Language of assessment

Assessment of this specification will be available in English only. Assessment materials will be published in English only and all work submitted for examination and moderation must be produced in English.

Quality of written communication

Students will be assessed on their ability to:

- write legibly, with accurate use of spelling, grammar and punctuation in order to make the meaning clear
- select and use a form and style of writing appropriate to purpose and to complex subject matter
- organise relevant information clearly and coherently, using specialist vocabulary when appropriate.

Assessment objectives and weighting

		% in AS	% in A2	% in GCE
A01	Students should demonstrate knowledge and understanding of physical activity	40.5%	27%	33.75%
A02	Students should demonstrate the ability to apply skills, knowledge and understanding in physical activity	40.5%	35.5%	38%
A03	Students should demonstrate the ability to analyse and evaluate critically physical activity	19%	37.5%	28.25%
TOTAL		100%	100%	100%

Synoptic assessment

In synoptic assessment there should be a concentration on the quality of assessment to ensure that it encourages the development of the holistic understanding of the subject.

Synopticity requires students to connect knowledge, understanding and skills acquired in different parts of the Advanced GCE course.

Synoptic assessment in physical education requires students to draw together the three aims of the subject criteria.
