

3.6 Feedback	3.6.1	The types, purposes and effectiveness of feedback as motivation, reinforcement and detection and correction of errors.
	3.6.2	Types of feedback as in positive/negative, knowledge of performance, knowledge of results, concurrent/terminal, intrinsic/extrinsic.
	3.6.3	Uses of technology to support types of feedback in order to optimise performance.
	3.6.4	Open and closed loop control Open loop models to include input, executive system, effector system and output. Closed loop control models – input, executive system, effector system, output and feedback. Application of when each loop could be used.
