

13 Experimental design

Subject content	Additional information
13.1 Know and discuss issues involved in experimental design: experimental error, randomisation, replication, control and experimental groups, and blind and double blind trials.	Students will be expected to explain and discuss these concepts in a given context. (applies to all of section 13)
13.2 Know the benefits of use of paired comparisons and blocking to reduce experimental error.	
13.3 Use completely random and randomised block designs.
