

Component 1: Personal Portfolio

Content overview

- Students must work within one of the following titles: Art, Craft and Design; Fine Art; Graphic Communication; Textile Design; Three-dimensional Design; Photography.
- Students undertaking Art, Craft and Design must create work associated with areas of study chosen from **at least two** of the endorsed titles. Students undertaking one of the endorsed titles must create work associated with **at least one** area of study for that title.
- Students create a personal portfolio of work that demonstrates the knowledge, understanding and skills on page 7.
- Centres are free to devise any theme(s), project(s) or task(s) appropriate to their students and resources. They may each have a separate focus or be interconnected.
- This component allows students opportunities to:
 - develop and explore ideas
 - research primary and contextual sources
 - experiment with media, materials, techniques and processes
 - present personal response(s) to theme(s) set by the centre.
- The proportion of the 120 guided learning hours spent on this component should reflect its 60% weighting.

Assessment overview

- Students' work must comprise supporting studies and personal response(s).
- Students' work must show evidence of all four Assessment Objectives.
- All work is internally set and is internally marked using the assessment grid on pages 32 and 33 and internally standardised.
- A sample of work is externally moderated by a visiting moderator.
- All marks must be submitted before moderation.
- First assessment is in May/June 2018.

Detailed description

For the Edexcel GCSE in Art and Design, students must complete a Personal Portfolio of work in response to theme(s), project(s) or task(s) set by the centre.

A Personal Portfolio is defined as a body of practical research and development, relevant to the chosen theme(s), project(s) or task(s), leading to one or more outcomes or to a variety of resolutions.

Centres will devise theme(s), project(s) and/or task(s) in consultation with their students to ensure development of the required knowledge, understanding and skills stated in the specification content; coverage of Assessment Objectives; and personal creative engagement. Theme(s), project(s) or task(s), and resulting work, may be separate in focus or be interconnected. With a focus on building technical skill through exploring and experimenting with different types of media, processes and techniques, students will develop and refine ideas supported by contextual research, resulting in a personal portfolio of practical work.

This component offers ample opportunities to devise programmes of study that require the development of students' visual language to communicate personal ideas, meanings and responses.

Students should develop their personal ideas, and centres should ensure the authenticity of work submitted for assessment. Both the student and the teacher **must** sign the Authentication Sheet in *Appendix 2*, declaring that the work submitted for assessment has been carried out without assistance other than that which is acceptable according to the rules of the specification.

Students must not be allowed to access their work once submitted for assessment.

A student's Personal Portfolio of work must show evidence of all four Assessment Objectives. The Assessment Objectives are interrelated, and centres should deliver them in a holistic way. Centres must ensure full coverage across Component 1 Personal Portfolio.

Through this component, students must:

- develop ideas through investigations, demonstrating critical understanding of sources (AO1)
- refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes (AO2)
- record ideas, observations and insights relevant to intentions as work progresses (AO3)
- present a personal and meaningful response that realises intentions and demonstrates understanding of visual language (AO4).

Component 1 should allow students to demonstrate the ability to construct a sustained line of reasoning, which is coherent, relevant, substantiated and logically structured. All knowledge, skills, understanding and activities should therefore be relevant to the student's creative journey. The work undertaken for this component should be seen as part of a substantive project(s), rather than a series of disjointed tasks, and work should evidence all the Assessment Objectives holistically.

Selection of work

Supporting studies should show students' development of ideas and progress through their work. Supporting studies may be evidenced through any appropriate means such as sketchbooks, notebooks, worksheets, design sheets, different scale rough studies, samples, swatches, test pieces, maquettes and digital material.

The quality of the work submitted for assessment is key: students should be encouraged to select a focused body of work for submission that evidences:

- the progression of their ideas and their work
- the four Assessment Objectives
- the coverage of the areas of study required by the specification.
