

Topic 14: Electricity: changing circuits

Students should:		Guidance <i>iPrimary Curriculum Reference</i>
14.1	know how to use and interpret recognised symbols for components when drawing or designing simple series circuits	recognise and name 3D diagrams of a bulb, buzzer, battery (cell), wire, switch and motor draw and identify recognised electrical component symbols for a bulb, buzzer, battery (cell), wire, switch and motor <i>Year 6: Electricity: changing circuits</i>
14.2	know how the brightness of a lamp, the volume of a buzzer or the speed of a motor changes with the number and voltage of cells, the number of components in the circuit and the on/off position of switches used in the circuit	series circuits ONLY <i>Year 6: Electricity: changing circuits</i>
