

related to the Learning outcomes, do not form part of the assessable content. These contexts are provided as a coherent and engaging teaching sequence, allowing the specification content to be covered in a way that integrates the various aspects of chemistry and relates the subject to modern applications and everyday experience. Learners will be expected to be able to apply their understanding of chemistry to unfamiliar contexts in the assessments.

References to HSW (Section 5) are included in the guidance to highlight opportunities to encourage a wider understanding of science.

The mathematical requirements in Section 5 are also referenced by the prefix M to link the mathematical skills required for A Level Chemistry to examples of chemistry content where those mathematical skills could be linked to learning.

## **Section 2d – Storylines**

- Elements of life
- Developing fuels
- Elements from the sea
- The ozone story
- What's in a medicine?
- The chemical industry
- Polymers and life
- Oceans
- Developing metals
- Colour by design
