

TECHNICAL PRINCIPLES	3.4 What factors need to be considered when distributing products to markets?	
	a. Understand the issues related to the effective and responsible distribution of products, such as: • cost effective distribution • environmental issues and energy requirements • social media and mobile technology • global production and delivery.	
	b. Demonstrate an understanding of the implications of intellectual property (IP), registered designs, registered trademarks, copyright, design rights and patents, in relation to ethics in design practice and consumer rights.
