DESIGNING PRINCIP

1.2 What can be learnt by undertaking stakeholder analysis?	
a. Demonstrate an understanding of methods used for investigating stakeholder requirements, such as: • user-centred design and stakeholder analysis • SWOT analysis • focus groups • qualitative observations • market research to identify gaps for new products or opportunities to update existing products • use of forecasting companies to identify technological and fashion trends.	
b. Demonstrate an understanding of how enterprise can help drive the development of new product ideas through routes to innovation such as: • entrepreneurship • commercial partnerships • venture capitalists and crowd funding websites.
