

2c. Content of: Practitioners in practice – design (13/14)

This component is designed to allow learners to explore practically the work of theatre practitioners and to use the skills gained to explore text and create devised theatre.

Learners are required to practically explore two practitioners and an extract from a performance text.

This component is practically based allowing learners to explore and experience the key ideas and methodologies in theatre.

Learners are required to use the skills they have acquired throughout the component to create a piece of devised theatre.

The chosen practitioners must meet the criteria set out in Appendix 5f.

As part of this section learners complete a research report.

Section 2

Learners create a devised performance influenced by their exploration of the work of others from Section 1.

In this section learners complete a portfolio of evidence of the practical work they have created and developed during the devising process. This will include analysis and evaluation of their own work.
