

Component 13/14 – design

Designers must work with a performance group whose performance meets the minimum times set out above.

Learners can choose from the following design roles:

- lighting
- sound
- lighting and sound (combined)*
- set (including props and multimedia staging)
- costume (including hair, makeup and masks).

* Lighting and sound (combined) cannot be chosen where a lighting and/or sound designer is part of the performance group.

The minimum requirements for designers are as follows:

- lighting – a full lighting design for the performance with a cue sheet detailing lanterns used and the differing lighting states. A minimum of 15 lighting changes evident in

performance

- set – a scale model and a detailed ground plan of the set which includes three set changes during the performance. Sourcing the set (and props) for the performance and supervision of the construction of the set where appropriate. Learners must dress the set ready for performance and must realise the set in the final performance including the 3 changes
- costume – a final design of:
 - **either** three full costumes including hair and makeup detail which are sourced and realised in performance
 - **or** three full costumes including mask(s) which are sourced and realised in performance
 - **or** five costumes for characters (excluding hair, makeup or masks) which are sourced and realised in performance
 - these costumes can be for different characters or different costumes for one or more characters.

For 'Practitioners in practice' (Component 11/12 or 13/14) teachers must assess learners' work using the marking grids on pages 32–42. Learners will be awarded five separate marks which are added together to give the total mark for this component out of 120.
