

2e. Content of Evaluating and Analysing Performance for Improvement (NEA) (H555/06)

Learners are internally assessed through the NEA in Evaluating and Analysing Performance for Improvement (EAPI).

For the approved activities list see section 2e of the OCR Advanced Subsidiary and Advanced GCE in Physical Education Guide to non-exam assessment.

Learners will observe a live or recorded performance by a peer in either their own assessed performance

activity or another activity from the approved list. Through observation, learners will provide an oral response analysing and critically evaluating their peers' performance.

Teachers must refer to and follow the OCR Advanced Subsidiary and Advanced GCE in Physical Education Guide to non-exam assessment for further detail on this area of assessment.
