

Module 2: Foundations of physics

The aim of this module is to introduce important conventions and ideas that permeate the fabric of physics. Understanding of physical quantities, S.I. units,

scalars and vectors helps physicists to effectively communicate their ideas within the scientific community (HSW8, 11).

2.1 Physical quantities and units

This section provides knowledge and understanding of physical quantities and units.

2.1.1 Physical quantities

Learning outcomes		Additional guidance
<i>Learners should be able to demonstrate and apply their knowledge and understanding of:</i>		
(a)	physical quantities have a numerical value and a unit	M0.1
(b)	making estimates of physical quantities listed in this specification.	M0.4
