

3.3.3 Power

Learning outcomes	Additional guidance
<i>Learners should be able to demonstrate and apply their knowledge and understanding of:</i>	
(a) power; the unit watt; $P = \frac{W}{t}$	Learners will also be expected to derive this equation from first principles.
(b) $P = Fv$	
(c) efficiency of a mechanical system; useful output energy	<i>M0.3</i> MSWB 10.12
