

4.2.3 Resistance

Learning outcomes		Additional guidance
<i>Learners should be able to demonstrate and apply their knowledge and understanding of:</i>		
(a)	resistance; $R = \frac{V}{I}$; the unit ohm	Learners will also be expected to recall this equation.
(b)	Ohm's law	
(c)	(i) I – V characteristics of resistor, filament lamp, thermistor, diode and light-emitting diode (LED)	M3.12 HSW5, 8, 9
	(ii) techniques and procedures used to investigate the electrical characteristics for a range of ohmic and non-ohmic components.	PAG3 HSW3, 4, 5 Investigating components and analysing data using spreadsheet.
(d)	light-dependent resistor (LDR); variation of resistance with light intensity.
