

Learning outcomes	Additional guidance
<i>Learners should be able to demonstrate and apply their knowledge and understanding of:</i> (a) force on a charged particle travelling at right angles to a uniform magnetic field; $F = BQv$ (b) charged particles moving in a uniform magnetic field; circular orbits of charged particles in a uniform magnetic field (c) charged particles moving in a region occupied by both electric and magnetic fields; velocity selector.	THIS WILL ALSO REQUIRE KNOWLEDGE OF 3.2, 3.3 and 5.2
