Assessment guidance

Task	Assessment guidance
Task 1	- The outline of the product proposal for R068 is not assessed here, but it is needed to enable other criteria to be moderated, as students need to link their findings throughout this assignment to their customer profile. - Students do not need to present theory on branding and the external environment by itself, but do need to apply their understanding of both to their proposed brand. - When students carry out research and analysis, they must work independently. Therefore it would be highly unusual to see the same outputs in all students as each design will be unique being dependent on individual market research and feedback, as is their pricing strategy. Students should be assessed on how they have interpreted any generic competitor information in relation to their own design.
Task 2	Promotional materials should involve more than one type of promotional material, e.g. not just two different types of advertisement.
Task 3	- Student feedback should be completed on the Practice Pitch Feedback form. Students will need to include a copy of both the feedback they have given and the feedback they have received. - The pitch needs to be 5 – 10 minutes in duration. - Supporting visual aids produced by the student could be in the form of a handout to the audience but must not be a simple reprint of the presentation materials in a different format e.g. the notes view of presentation slides. A print out of the presentation slides is not acceptable as the second visual aid, though they can of course be provided to the panel. Speaker notes/prompt cards can be one of these supporting visual aids. - Clear evidence is needed of how the pitch plan has been refined, based upon feedback received. This could be in the form of annotating the original pitch, or a report explaining what has changed.

Task 4	- The pitch can be recorded but it is not a requirement. - The audience must include at least one independent witness. When there are two independent witnesses, the teacher will still supervise the pitch. Where possible, the same independent witness/es should be used for all pitches in order to assist consistency of the teacher's assessment and grading. The teacher will use the completed OCR Teacher Observation Records as a basis for their final assessment of the student's pitch. - The OCR Teacher Observation Record for Enterprise and Marketing, which is signed by the panel and the student, must be included in each students' work.
Task 5	When considering the relative cost of promotional materials students do not need to have actual costings or detailed estimates, but rather be able to show an understanding that some promotional materials are more expensive than others.

Synoptic assessment

Some of the knowledge, understanding and skills required when completing this unit will draw on the learning developed in Unit R067. The following table details where these synoptic links can be found:

Unit R069: Design a Business proposal		Unit R067: Enterprise & Marketing Concepts	
Topic Area		Topic Area	
2	Create a promotional campaign for a brand and product	4	Creating a marketing mix to support a product
3	Plan and pitch a proposal	1	Characteristics, risk and reward for enterprise

More information about synoptic assessment within this qualification can be found in [section 5.2 Synoptic assessment](#).

J837	OCR Level 1/Level 2 Cambridge National in Enterprise and Marketing	120*	603/7093/2
Made up of three mandatory units:			
Units R067, R068 and R069.			

*the GLH includes assessment time for each unit.

Individual unit details below:

Unit R067: Enterprise and marketing concepts	
48 GLH 1 hour 15 minute written examination 70 marks (80 UMS) OCR-set and marked Calculators are allowed in this exam	This question paper has two parts: - Part A – includes 10 multiple choice questions (MCQs) - Part B – includes short/medium answer questions and one extended response question marked by levels of response. The extended response question will relate to Topic Area 4.
Unit R068: Design a business proposal	
36 GLH OCR-set assignment 60 marks (60 UMS) Centre-assessed and OCR moderated	This set assignment contains six practical tasks. It should take approximately 10 - 14 GLH to complete.
Unit R069: Market and pitch a business proposal	
36 GLH OCR-set assignment 60 marks (60 UMS) Centre-assessed and OCR moderated	This set assignment contains five practical tasks. It should take approximately 10 - 14 GLH to complete.

The terminal assessment rule or 'terminal rule' means that the exam must be taken in the final assessment series of the student's course. Non examined assessment (NEA) units can be submitted in the same series as the exam or an earlier series but the exam must be taken in the final series.

If a student takes the exam in a series before their work for NEA units are submitted, this is considered as a 'practice attempt' and will not contribute to their final qualification grade. The student must take their exam again in their final assessment series and that exam result will be used towards the student's final qualification grade.

For more information on the terminal rule and also what it means for performance tables see [Section 7.3](#). Resitting units before certification and Retaking the qualification.

OCR-set assignments for units R068 and R069 will be available on our secure website for teachers, [Teach Cambridge](#). Students must complete the assignment for R068 before they begin the assignment for R069.

5.2 Synoptic assessment

Synoptic assessment is a built-in feature of this qualification. It means that students need to use an appropriate selection of their knowledge, understanding and skills developed across the qualification in an integrated way and apply them to a key task or tasks.

This also helps students to build a holistic understanding of the subject and the connections between different elements of learning, so they can go on to apply what they learn from this qualification to new and different situations and contexts.

The externally assessed unit R067 allows students to gain underpinning knowledge and understanding

relevant to Enterprise and Marketing and the non examined assessment (NEA) units R068 and R069 draw on and strengthen this learning by letting students apply their learning in a practical, skills-based way.

It is important to be aware of the synoptic links between the units so that teaching, learning and assessment can be planned accordingly. Then students can apply their learning in ways which show they are able to make connections across the qualification when they are assessed.

5.3 Transferable skills

This qualification also allows students the opportunity to gain broad, transferable skills and experiences that can be applied as they progress into their next stages of study and life and to enhance their preparation for future employment.

Students will have the opportunity to develop the following skills that are transferable to different real-life contexts, roles or employment:

Verbal Communication/Presentation

This will involve the following:

- pitching their product which will allow the student to demonstrate the appropriate skills
- they need to research and plan the technical subject content
- they must present to an audience within a set timeframe and produce appropriate visual aids.

Employers often require people with strong verbal communication skills. Upon delivery of the student's pitch, they will be able to demonstrate their verbal communication skills which will be assessed as part of the set assignment.

Research

This will involve the following:

- undertaking product research
- understanding the objective of researching the product
- using primary and secondary research
- the students will need to record the research sources which will be used to interpret findings and present evidence.

In a working environment the student could be asked to look at a variety of complex information that they are required to work with and make sense of. For example:

- sales figures
- new product
- supplier information.

The skills they will develop here will help them to work effectively.

Analytical Skills

The whole process leading up to their professional pitch, requires students to show/demonstrate the ability to:

- research, gather, visualise and analyse information
- problem-solve
- reflect and make decisions.

They will also require these when assessing the financial viability of their proposal.

Digital Presentation

The students could use a digital presentation for their product pitch using:

- text
- images
- audio
- video etc.

The process of creating a digital presentation would also help them to think through their ideas. It involves identifying and choosing the right tools and images to illustrate the points being made.

Planning

The student will be required to plan the process of activities leading up to their product pitch:

- planning the design
- planning the pitch
- thinking about a promotional plan
- the promotional materials required
- managing time
- identifying resources
- reviewing, as necessary.

Creative Thinking

Creative thinking will need to be applied as part of a process in exploring and generating ideas for their product design. Developing creative thinking will enable the student to:

- develop their ideas and bring them to life
- explore and generate ideas
- make original connections possibly to find imaginative solutions and outcomes that are of value.

5.4 Grading and awarding grades

All results are awarded on the following scale:

- Distinction* at Level 2 (*2)
- Distinction at Level 2 (D2)
- Merit at Level 2 (M2)
- Pass at Level 2 (P2)
- Distinction at Level 1 (D1)
- Merit at Level 1 (M1)
- Pass at Level 1 (P1).

The shortened format of the grade will show within results files and results reports. However, the full format of the grade will be on the certificates issued to students.

The boundaries for Distinction at Level 2, Pass at Level 2, and Pass at Level 1 are set judgementally. Other grade boundaries are set arithmetically.

The Merit (Level 2) is set at half the distance between the Pass (Level 2) grade and the Distinction (Level 2) grade. Where the gap does not divide equally, the Merit (Level 2) boundary is set at the lower mark (For example, 45.5 would be rounded down to 45).

For the examined unit, the Distinction* (Level 2) grade is normally set at about 0.75 of the D2-M2 distance above the D2 boundary mark.

To set the Distinction (Level 1) and Merit (Level 1) boundaries, the gap between the Pass (Level 1) grade and the Pass (Level 2) grade is divided by 3, and the boundaries set equidistantly. Where this division leaves a remainder of 1, this extra mark will be added to the Distinction (Level 1) to Pass (Level 2) interval, meaning the Distinction (Level 1) boundary will be lowered by 1 mark. Where this division leaves a remainder of 2,

the extra marks will be added to the Distinction (Level 1) to Pass (Level 2) interval, and the Merit (Level 1) to Distinction (Level 1) interval, meaning the Distinction (Level 1) boundary will be lowered by 1 mark, and the Merit (Level 1) boundary will be lowered by 1 mark.

For example, if Pass (Level 2) is set judgementally at 59, and Pass (Level 1) is set judgementally at 30, then Distinction (Level 1) is set at 49, and Merit (Level 1) is set at 39.

Grades are indicated on qualification certificates. However, results for students who fail to achieve the minimum grade (Pass at Level 1) will be recorded as unclassified (U or u) and **will not** be shown on certificates.

This qualification is unitised. Students can take units across different series and can resit units (see [section 7.8 Unit and qualification resits](#)). Grade boundaries are set per unit, per series, so may be set in different places for a unit in different series. When working out students' overall grades, OCR needs to be able to compare performance on the same unit in different series when different grade boundaries may have been set, and between different units. We use a Uniform Mark Scale (UMS) so this can be done.

A student's uniform mark for each unit is calculated from the student's raw mark on that unit. The raw mark boundary marks are converted to the equivalent uniform mark boundary. Marks between grade boundaries are converted on a pro rata basis.

When unit results are issued, the student's unit grade and uniform mark are given. The uniform mark is shown out of the maximum uniform mark for the unit (for example, 42/60).

Raw marks	70	60	60
UMS	80	60	60

The uniform mark boundaries for each of the assessments do not change and are shown below:

Unit GLH	Max Unit Uniform Mark	Unit Grade							
		Distinction* at L2	Distinction at L2	Merit at L2	Pass at L2	Distinction at L1	Merit at L1	Pass at L1	U
36	60	54	48	42	36	30	24	18	0
48	80	72	64	56	48	40	32	24	0

The student's uniform mark for Unit R067 will be combined with the uniform mark for the NEA units to give a total uniform mark for the qualification.

The student's overall grade will be determined by the total uniform mark. The following table shows the minimum total mark for each overall grade.

Max Uniform Mark	Qualification Grade							
	Distinction* at L2	Distinction at L2	Merit at L2	Pass at L2	Distinction at L1	Merit at L1	Pass at L1	U
200	180	160	140	120	100	80	60	0

On results day we will publish a marks calculator, for the specific series, on our [website](#) to help you convert raw marks/number of achieved criteria into uniform marks.

6 Non examined assessment (NEA) units (R068 and R069)

This section provides guidance on the completion of the NEA units (R068 and R069). The NEA units are designed so that students can build a portfolio of evidence to meet the topic areas for the unit.

Assessment for this qualification must adhere to JCQ's [Instructions for conducting non-examination assessments \(Vocational and Technical Qualifications\)](#).

Please **do not** use JCQ's Instructions for Conducting Non-examination Assessments (GCE and GCSE Specifications) – these are only relevant to A Level and GCSE specifications.

Units R068 and R069 are centre assessed and externally moderated by us.

You **must** make sure that you have read and understood all of the rules and guidance provided in this section **before** your students complete and you assess the set assignments.

If you have any queries please [contact us](#) for help and support.
