

7 Administration

Full details of the administrative arrangements can be found in the administration area of the OCR website www.ocr.org.uk/administration/.

7.1 Availability of assessment

There are three assessment series each year in January, June and November. Learners can be entered for different units in different exam series. Assessment availability can be summarised as follows:

	Unit R001 [±]	Unit R002 – R007*
January	✓	✓
June	✓	✓
November	–	✓

Certification is available each January, June and November.

*June 2021 series is the final moderation opportunity for OCR Cambridge National Award and Certificate in ICT Units R002 – R007.

[±]January 2022 is the final resit opportunity for Unit R001.

7.2 Making entries

Centres must be registered with OCR in order to make any entries, including estimated entries. It is recommended that centres apply to OCR to become a registered centre well in advance of making their first entries. Details on how to register with OCR can be found on the [OCR website](http://www.ocr.org.uk).

It is essential that unit entry codes are quoted in all correspondence with OCR.

7.2.1 Making estimated entries

Estimated entries must be made prior to each assessment series. Estimated entries are used by OCR to allocate examiners and moderators to centres.

7.2.2 Making final unit entries

When making an entry, centres must quote unit entry code and component codes. For the centre-assessed units, centres must decide whether they want to submit learners' work for moderation via the OCR Repository or via postal moderation. Learners' submitting work must be entered for the appropriate unit entry code from the table over the page.

Component code	Assessment method	Unit title
01	Written paper	<i>Understanding computer systems</i>
01	Moderated via OCR Repository	<i>Using ICT to create solutions in a business environment</i>
02	Moderated via postal moderation	
01	Moderated via OCR Repository	<i>Handling data using spreadsheets</i>
02	Moderated via postal moderation	
01	Moderated via OCR Repository	<i>Handling data using databases</i>
02	Moderated via postal moderation	
01	Moderated via OCR Repository	<i>Creating an interactive product using multimedia components</i>
02	Moderated via postal moderation	
01	Moderated via OCR Repository	<i>Creating digital images</i>
02	Moderated via postal moderation	
01	Moderated via OCR Repository	<i>Creating dynamic products using sound and vision</i>
02	Moderated via postal moderation	

r these Cambridge National qualifications is CAMNAT and will display as such on some administrative documents provided by OCR.

d to register your candidates first; individual unit entries should be made for the ou intend to submit an internally assessed unit or sit the externally assessed

tification entry using the overall qualification code (see below) in the final series.

ification rules

e entered for qualification certification separately from unit assessment(s). If a / is **not** made, no overall grade can be awarded.

entered for:

I 1/2 Cambridge National Award – certification code J800

I 1/2 Cambridge National Certificate – certification code J810.

entered for certification of any combinations of the Award and Certificate ncurrently.

I to calculate the result for one qualification can be re-used toward certification of ns of a different size. This means that, as learners' progress through the course, ate for the Award once they have completed the first two units and then 'top up' to ; they complete further units.

minimal requirements for these qualifications therefore learners can complete units in

7.4 Unit and qualification resits

Learners may resit each centre-assessed unit and the best unit result will be used to calculate the certification result.

Learners may enter for the qualification an unlimited number of times. Learners must retake at least one unit, or take a different optional unit, for a new result to be issued.

7.5 Post-results services

Under certain circumstances, a centre may wish to query the result issued to one or more learners. Reviews of results requests for all units must be made immediately following the series in which the relevant unit was taken (by the reviews of results deadline).

Please refer to the [JCQ Post-Results Services booklet](#) and the [OCR Administration](#) page for further guidance about action on the release of results.

For internally assessed units the review of results process cannot be carried out for one individual learner; the outcome of a review of moderation must apply to a centre's entire cohort.

7.6 Shelf-life of units

Individual unit results, prior to certification of the qualification, have a shelf-life limited only by that of the qualification.
