

2.1 Technical skills to create and/or edit and manage assets for use within interactive digital media products

□ Techniques for sourcing suitable assets

- advanced searching
- search by feature/property
- search by licence
- libraries

Static image assets

□ Types

- vector
- bitmap

□ Techniques to repurpose image assets

- adjust brightness/contrast and colour
- adjust image/canvas size
- apply filters
- apply transformations
- retouching

Audio assets

□ Types

- sound effects
- narration
- music

□ Techniques to repurpose audio

- cut
- split
- trim
- extend
- optimise file size/format
- enhancing sounds in audio editing software
- volume editing

To include:

- Using search tools to source assets which are suitable for use within interactive digital media
- Locating and using libraries and stock media, when identifying and selecting pre-made digital media content
- Saving and exporting assets as suitable file sizes/formats for use as components within interactive digital media

To include:

- Using software tools and techniques to create and repurpose static image assets
- Using vector and bitmap images appropriately
- Adjusting brightness and contrast, levels, colour balance, hue, saturation
- Changing image/canvas size - expanding or modifying
- Using filters and effects to enhance visual appeal - stylise, monochrome, colour toning, vignette, sharpen
- Applying transformations to correct or distort objects - flip, skew, rotate
- Using retouching techniques to remove unwanted elements - using cloning, healing, blur, colour swatches, colour picker, pencil, brush, background removal
- Saving and exporting assets as suitable file sizes/formats for use as components within interactive digital media

To include:

- Using software tools and techniques to create and repurpose audio assets
- Importing sound to create assets
- Trimming/cutting/splitting unwanted parts of sound assets
- Joining sounds together to extend sound assets
- Adjusting volume of sound assets
- Saving and exporting assets as suitable file sizes/formats for use as components within interactive digital media

Unit R097: Interactive digital media

Moving image assets

- Types
 - video
 - animation/animated assets
- Techniques to repurpose moving images
 - cut
 - split
 - trim
 - extend
 - speed/pitch tempo
 - optimise file size/format

Interactive assets

- Types
 - diagrams
 - maps
 - buttons/roll over buttons
 - banners
 - navigation bars
 - forms

To include:

- Using software tools and techniques to repurpose video assets
- Importing video footage to create assets
- Placing and sequencing video assets along timelines
- Trimming/cutting unwanted parts of video assets
- Adjusting brightness and colour of video assets
- Saving and exporting assets as suitable file sizes/formats for use as components within interactive digital media

To include:

- Using software tools and techniques to create interactive elements
