

2.1 Techniques to explain game concepts

Game Design Documents (GDDs)

- Audience for GDDs
 - elements for developers
 - elements for clients/customers/investors
- Purpose and Using GDDs
 - engagement
 - information
 - keeping the game creation 'on track'
- Format, layout and templates for GDDs
- Content of GDDs
 - unique selling point (USP)
 - genre
 - platform
 - target audience
 - synopsis
 - gameplay
 - objectives
 - art
 - sound and music

To include:

- How GDDs are used to engage and inform developers and clients, keeping games 'on track' during their creation by setting out the key goals and concepts of game ideas
- Format, layout and structure of GDDs to explain concepts clearly
- Creating GDDs to engage and inform clients or investors by explaining key elements of concepts including Unique Selling Points (USP) /elevator pitches/concept statements, genres, platforms, target audiences, characters, synopsis of story, gameplay, in-game purchases or monetisation, objectives and art, sounds and music
- Design specifics to inform and engage developers, including progression, scoring, timing, levels, interactivity, user interface and controls, game objects, core loops and game structures, concept art, geometric parameters and game mechanics
