

Skills	Learners are required to demonstrate the knowledge, skills and understanding as defined in the Art and Design Core Content section of this specification in the context of their chosen area(s) of Photography. In addition, learners will be required to demonstrate skills in the following: • develop ideas through investigations informed by selecting and critically analysing sources • apply an understanding of relevant photographic practices in the creative and cultural industries to their work • refine their ideas as work progresses through taking, selecting, editing and presenting image(s)/artefact(s)/personal outcome(s) • record their ideas, observations, insights and independent judgements, in ways that are appropriate to the Photography title such as, recording still and moving images with lens-based media • use appropriate specialist vocabulary through either visual communication or written annotation, or both, within Photography • use visual language critically as appropriate to their own creative intentions and chosen area(s) of photography through effective and safe use of: ○ media ○ materials ○ techniques ○ processes ○ technologies • use drawing skills for different needs and purposes, appropriate to the area(s) of study used. Drawing may take the form of recording in light, storyboarding and image manipulation for using appropriate media and materials • realise personal intentions in Photography, through the sustained application of the photographic process.
Knowledge and Understanding	Learners are required to demonstrate the knowledge and understanding listed below through practical application of skills to realise personal intentions relevant to their chosen area(s) of Photography. Learners are required to know and understand how sources inspire the development of their ideas. Reference should be made to the following: • the work and approaches of photographers from contemporary and/or historical contexts, periods, societies and cultures • contemporary and/or historical environments, situations or issues • other relevant sources researched by the learner in their chosen area(s) of photography • the ways in which meanings, ideas and intentions can be communicated through visual and tactile language, using formal elements, including: ○ colour ○ line ○ form ○ tone ○ texture • the characteristics, properties and effects of using different media, materials, techniques and processes, and the ways in which they can be used in relation to learners' own creative intentions and chosen area(s) of Photography • the different purposes, intentions and functions of photography in a variety of contexts and as appropriate to learners' own work.
