

7.03	Transformations of curves and their equations			
7.03a	Translations and reflections			Identify and sketch translations and reflections of a given graph (or the graph of a given equation). [Knowledge of function notation will not be required] <i>[see also Functions, 6.05a]</i> e.g. Sketch the graph of $y = \sin x + 2$ $y = (x + 2)^2 - 1$ $y = -x^2$
