
2.3 National Study

Introduction

Students will be required to select one chosen role from performer, leader or official and detail the development pathway from initial elite selection (educational establishment first team) to national representation. This project will develop the amateur to professional provisions as appropriate.

Students are required to trace and explain the elite routes for one of their chosen personal performance roles (*Task 2.1*) and where possible to base this task on the national pathways in the UK.

The pathways detailed may involve the structure and function of academies, the training and physical developments available to the student, national governing body provisions and the structure of coaching, coaching awards and official qualifications.

If this task is presented in a written (continuous prose) format, then 1000 words will be considered an appropriate length.

It is the centre's responsibility to inform students that there is no tolerance on the prescribed word limit. Students are required to include a cumulative word count at the bottom of each page. Teacher-assessors and moderators will discontinue marking once the prescribed word limit is reached.
