

3.2 Data representation	3.2.1 Understand how computers represent and manipulate numbers [unsigned integers, real numbers]
	3.2.2 Understand how computers represent characters [ASCII, Unicode]
	3.2.3 Understand how bitmap images are represented in binary [pixels, resolution, colour depth]
	3.2.4 Understand how sound is represented in binary [sampling frequency, word length]
	3.2.5 Recognise the limitations of binary representation of data and
