

2 Geography content

Paper 1: Physical geography	10
Paper 2: Human geography	22

Course structure

- The Pearson Edexcel International GCSE in Geography comprises two examinations.
- The Pearson Edexcel International GCSE in Geography is a linear qualification.
All examinations must be taken in the terminal series at the end of the course of study.

The content in detail

The specification content for each topic is divided into the following sections.

Key ideas

Each topic is divided into a number of key ideas that give a focus to the content.

Detailed content

Each key idea is broken down into detailed content that specifies what must be studied. Examination questions will be based on this content.

Case studies and located examples

All students must study four in-depth case studies.

- In Paper 1, Section A: a case study of a developed country* and a developing country* or an emerging country*.
- Paper 2, Section A: a case study of a developed country* and a developing country* or an emerging country*.

In addition to four in-depth case studies, throughout the course it is a requirement to draw on located examples from developing, emerging and developed countries. Any located examples must be set within the broader contextual knowledge of the country.

In order to make it clear where a located example should be developed, a 🌐 symbol has been used.

Programmes of study could identify located examples within the countries selected for the four in-depth case studies.

Geographical skills

Throughout their course of study, students are required to develop a range of geographical skills, including quantitative skills. These skills may be assessed across any of the examined papers. The full list of geographical skills is given on *page 49*.

Some geographical skills may only be assessed in specific topics. Examples of how these skills could be used in particular topics are signposted in the detailed content and listed in the 'Integrated skills' sections after each topic.

Abbreviations used

GDP – gross domestic product

GIS – geographic information system

IGO – intergovernmental organisation

NGO – non-governmental organisation

TNC – transnational corporation

* See *Appendix 2* for definition of a developed, developing and emerging country.
