

7.3 The responses to desertification, deforestation and climate change vary depending on a country's level of development	a) How technology can resolve water-resource shortages in fragile environments under threat from desertification. b) Different approaches to the sustainable use and management of a rainforest in a named region 🌐 to limit the extent of deforestation. c) Different responses to global warming and climate change from individuals, organisations and governments in a named developed 🌐 and a named emerging or developing country 🌐.
---	---

Integrated skills	
(1)	Use world maps to show the location of fragile environments.
(2)	Use and interpret line graphs showing past and predicted global population growth, and population in relation to likely resources.
(3)	Use maps (paper and online) to identify the pattern of deforestation.
