

3.2 Content

The examination is made up of three tasks (A, B and C).

The tasks must be conducted in consecutive order.

Task A (picture-based discussion)

The intention of this task is to enable students to speak about a situation or scenario with which they have some familiarity. Students will have to select a picture before the exam.

Students will select a picture from any sub-topic area, excluding sub-topics A3, C3, C5, D2 and E4. These will not be assessed in Task A.

Tasks B and C (conversations on topics)

The intention of Tasks B and C is to test students on two topics that have not been specifically prepared so as to test spontaneity of response. The teacher/examiner uses the randomisation grid provided by Pearson to determine which topic is to be examined in Tasks B and C.

Sub-topics A3, C3, C5, D2 and E4 will not be assessed in Tasks B and C.

Three distinct topics **must** be examined across Tasks A, B and C. The topic chosen for Task A must be different from the topic selected at random for Task B. The topic for Task C, also selected at random, will be different from both of the previous topics in Tasks A and B. If any topics are the same, the task(s) will be discounted and the candidate will receive zero marks for that task(s).
