

How chemists work

Students should be given the opportunity to develop their practical skills for *How Science Works* by completing a range of different practicals that require a variety of different techniques.

Students' laboratory reports on their practical work should use appropriate scientific, technical and mathematical language, conventions and symbols in order to meet the requirements of *How Science Works*.

3.2 Assessment information

Unit 3 examination

This unit contains a practical written examination that covers the content of Units 1 and 2.

The practical written examination covers the following types of practicals:

- qualitative observations
- quantitative measurements
- preparations.

The examination will last 1 hour 15 minutes and have 50 marks. It will contain one section.

Students may use a calculator.

The quality of written communication will be assessed in the practical written examination. When answering these questions students will be assessed on their ability to organise and present information, ideas, descriptions and arguments clearly and logically, include the use of grammar, punctuation and spelling.
